

# Tushar Patle

## Software Developer

Highly motivated and passion for web development, well versed in technology and writing code to create systems that are reliable and user-friendly. Ability to learn and master new technologies.

## Experience

### Oct 2023 - Present

Runtime Solutions Pvt Ltd, Mumbai

#### Software Developer

I am currently working on leveraging my expertise in web development with a focus on React JS. With a solid foundation in React.js, I specialize in crafting interactive user interfaces and dynamic web applications. Utilizing concepts such as one-way data flow, Virtual DOM, and JSX, I strive to create seamless and engaging user experiences. My role involves writing robust application-level code to interface with APIs and RESTful Web Services, ensuring efficient data exchange using JSON. Additionally, I am proficient in developing responsive UI/UX interfaces to optimize user interaction across different devices and screen sizes. A key aspect of my current responsibilities involves troubleshooting and resolving issues in live applications, ensuring smooth operation. Furthermore, I actively utilize version control tools like GIT to manage code effectively and collaborate efficiently with team members. Currently, I am applying these skills and experiences to contribute to [current employer/project] in enhancing web applications and delivering impactful solutions.

### Mar 2023 - Jun 2023

Leo Coders Pvt. Ltd. Nagpur

#### Software Developer Intern

- Experience in web application development in React JS.
- Good experience in React.js for creating interactive UI's using One-way data flow, Virtual DOM, JSX concepts.
- Involved in writing application level code to interact with APIs, RESTful Web Services using JSON.
- Experience in developing responsive UI/UX interfaces.
- Experience in working with live applications and troubleshooting. Experience in Version control tools like GIT.

### Jul 2022 - Dec 2022

Unisoft Technologies, Nagpur

#### Software Developer Internship

- Knowledge of front-end optimization and performance techniques.
- Knowledge of developing web applications utilizing HTML5, CSS3, Bootstrap, JavaScript Reactjs.
- Designing the user experience interface UI/UX strategy, UI requirements, converting findings into UI designs.
- Creating Responsive Websites.
- Conception, design, implementation and maintenance of websites and other web applications. Prepare plans for website designs.

### Jul 2022 - Dec 2022

Canon India Pvt. Ltd. Nagpur

#### Associate Engineer

- I am trained in the PPP Service Department of Market Engineering (Service) Division.
- Our scope of work shall include developing new skills and applying the knowledge gained by doing hands-on repair of Canon products.
- Good knowledge of Network Basics.
- Good knowledge of Cloud Computing.

## Diploma(Electrical Engineering)

G.H Rasoni Polytechnic, Nagpur

Jun 2016 - Jun 2018, Percentage: 70.79%, Aggregate

# Projects

## 1. E-Commerce Site

**Technology:** HTML, CSS, Javascript, React.js, Tailwind CSS, Redux.

I crafted a dynamic E-Commerce website with React.js, Tailwind CSS, Redux, and useContext, showcasing my front-end and state management prowess. Essential features like product listing, seamless search, and an intuitive add-to-cart system were seamlessly implemented. Moreover, I integrated a sleek dark mode toggle for personalized browsing experiences. Leveraging API integration, real-time product updates ensure accurate inventory information. This project is a testament to my technical skills and ability to create engaging user interfaces.

**Github URL:** <https://github.com/tusharpatle0097/tushar-e-com-1>

## 2. Food Site

**Technology:** HTML, CSS, Javascript, React.js, CSS, SCSS, Meal DB API.

I created a dynamic food website using React JS, integrating the Meal DB API for a wealth of recipes and culinary inspiration. The intuitive search feature allows users to easily find their next culinary adventure. From mouthwatering recipes to insightful cooking tips, my website caters to food enthusiasts seeking gastronomic journeys. This project showcases my proficiency in React JS and my ability to utilize APIs for engaging web experiences.

**Github URL:** <https://github.com/tusharpatle0097/food-app>

## 3. Crud Operation/ToDo App

**Technology:** HTML, CSS, Javascript, React.js and Tailwind CSS.

I crafted a comprehensive ToDo/CRUD application with React.js and Tailwind CSS, seamlessly integrating Axios for API operations. This user-friendly interface boasts interactive components and utilizes React Toastify for efficient notifications. Robust validation mechanisms ensure data integrity and error prevention during user input. Leveraging various HTTP methods (POST, GET, DELETE, PUT), the app interacts with the backend API for smooth data transmission. This project served as a platform for honing skills in React development, API integration, responsive UI design with Tailwind CSS, and adept state management using React hooks.

**Github URL:** <https://github.com/tusharpatle0097/crud-todo-portf>

## 4. Crypto Bazar App

**Technology:** HTML, CSS, Javascript, React.js, CoinGecko APIs and Tailwind CSS.

CryptoBazar presents a diverse selection of 10 cryptocurrencies on its homepage, offering real-time data and trends to users. Providing in-depth insights, CryptoBazar includes dedicated routes to individual coin pages, allowing users to study comprehensive market data for each cryptocurrency. Enhancing user experience, CryptoBazar offers both light and dark theme modes, ensuring accessibility and personalized preferences for every user.
